Corporate Overview

Leonstride
Technologies

About Us

Leonstride Technologies is a business and technology services company delivering IT solutions for software, mobile and cloud development, maintenance and testing. We create value by taking care of all the IT needs and providing effective, sustainable and scalable solutions.
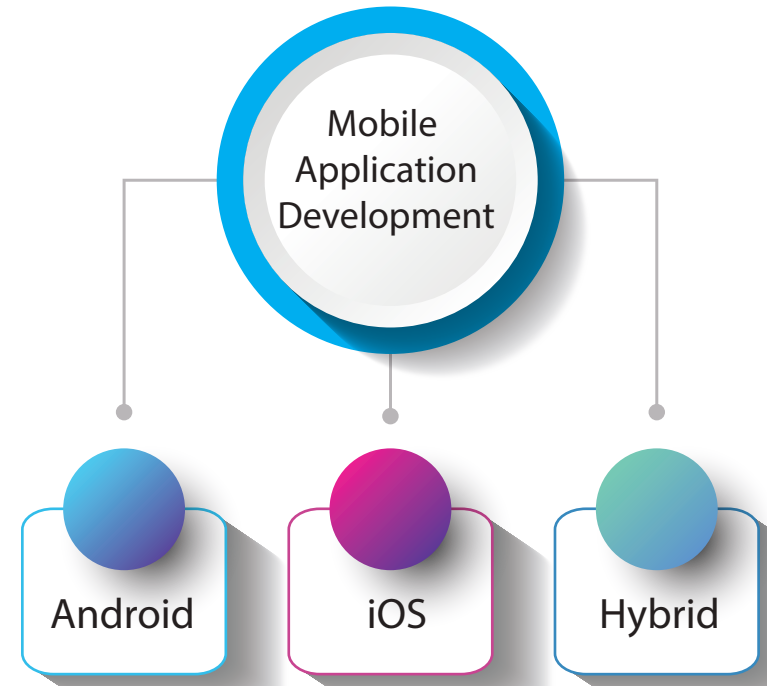

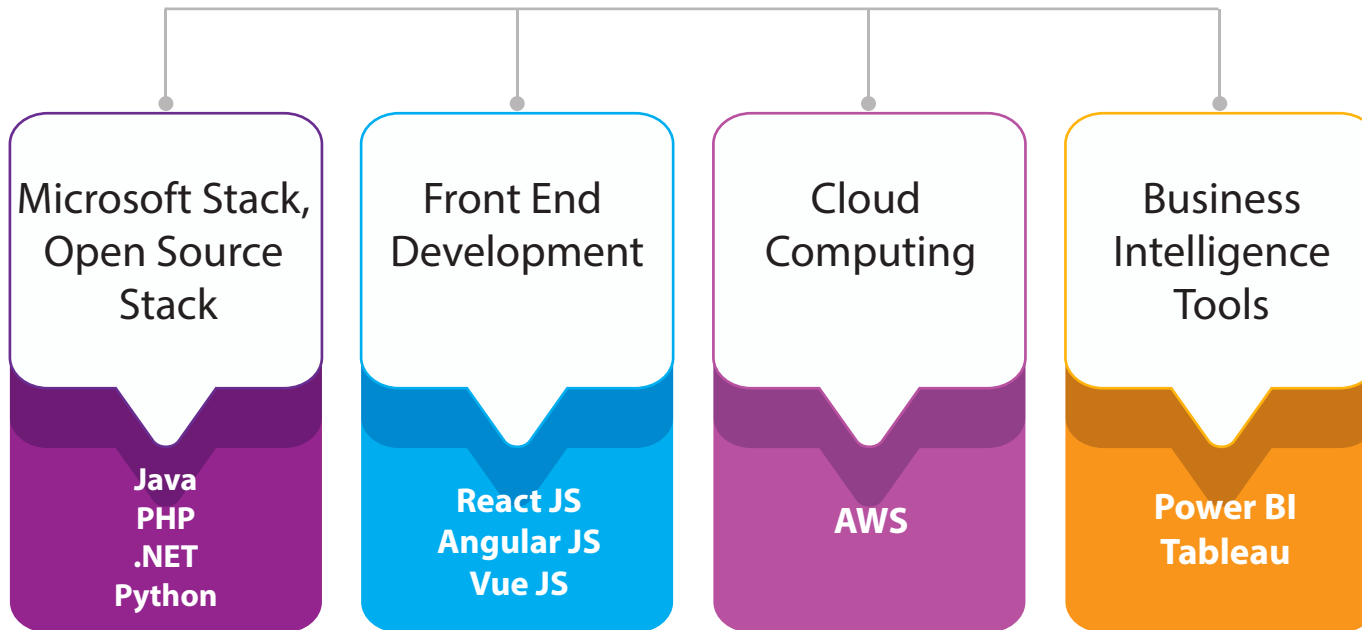

Founded in early 2012, we have an active client base spread across North America and Europe and further striving to become one of the leading solutions provider to organizations spread across domains and sizes.

Our skilled, professional and dedicated team has allowed us to deliver solutions to legal, construction, courier, financial Services, healthcare and information technology industries.

Architecture as a Service

ENGAGEMENT MODEL

Time and Material Model

Work hand in hand with the resource and unbilled project manager. The client pays a fixed hourly or monthly rate.

Fixed Bid Model

The customer pays a pre-negotiated fixed price for the complete project, which in turn is linked to well-defined deliverables. The client pays in 4-5 sprints according to Project Completion

Outsourced Development Centre Model

Extension of the customer's software engineering facility. The customer pays fixed monthly rate for the Team.

PEOPLE

1. **Trained** and qualified manpower.

2. **Soft skills** training as well as lessons on ethical values being given to employees regularly.

3. **Employee Development Program** for knowledge sharing and continual up-gradation of skills.

4. **Risk Management** training given to team for specific processes to own the responsibility and act proactively.

5. **Three months notice period** to safe guard the projects in hand.

6. **NDA** contracts to protect the confidential project and client information.

PROCESS

1

YOU DEFINE You define the kind of developers you need for your existing projects or for a new project.

2

WE HANDPICK We handpick the best fit from our pool of highly qualified, trained and experienced developers (2 to 10 years Exp.) We introduce you to your dedicated developer(s) - usually within 24 hours.

3

YOU KICKOFF NDA is signed and you kickoff the project with our developers that are now part of your team. Coding starts in matter of hours.

4

WE WORK Our developers work on your project. You Interact with the developers or with our unbilled project manager, and plan for milestones and seamlessly communicate with them. Daily / Weekly reporting of project through virtual meetings give you insight into progress on deliverables.

5

YOU ACHIEVE Code-by-code, line-by-line, developers complete milestones and you experience accelerated development. Achieve success, celebrate, and repeat.

6

YOU SCALE Whether you are experiencing hyper-growth or looking to restructure the team, you can easily and quickly scale up or down the size of your developers team.

Technology Expertise

Java   PHP   .NET   Python

Machine Learning / AI

Cloud Computing
